

Following a visit to the Black Country Museum, children wrote their reflections of the day for inclusion in the class yearbook. Writing was independent and completed in a single session.

## Visit to the Black Country Museum

On Tuesday, we went to the Black Country museum. Mum got breakfast I had to be at school before normal time the coach came at 7 and picked up all of the cars from school. It took two hours getting to the museum.

I really enjoyed looking around the museum and the houses were nice to look round because I liked to see how they did everything. We went in the schoolroom it was especially good when Ben and Alex got whipped with the cane! Lucky I did not get hit by the cane so I had a lucky escape.

When we went down the mine it was good because it was good information and the men were good when they made the chain and it sparked. It was ~~great~~ exciting to see their jacks about the mine. I was shaken out of my skin when the floor was shaken. But after that I was used to it was fun. When we were on top of the mine going to the coach I didn't know the top of it looked like that. It was a bit bright when I came out. But I got used to it.
